

Chemical Resistance Evaluation

This list is a sampling materials ALLIED INDUSTRIES has seen in the commercial food service environment. Eco-Grip® Slip Resistant Safety Flooring is resistant to these and many more chemicals and ALLIED INDUSTRIES will evaluate any chemical not listed which may be present in a particular application. Data based on ASTM D-543.

- Ammonium Chloride
- Ammonium Hydroxide
- Ammonium Nitrate
- Ammonium Sulfate
- Amyl Acetate
- Aniline
- Beef Fat
- Benzoic Acid
- Bleach
- Boric Acid
- Butyl Acetate
- Butyric Acid
- Calcium Chloride
- Calcium Hydroxide
- Calcium Hypochlorite
- Chicken Fat
- Chromic Acid
- Citric Acid
- Cutting Oil
- Detergent Solution
- Diethyl Phthalate
- Dilute Sodium Hydroxide
- Ethyl Alcohol
- Fertilizer Solution
- Fluburic Acid
- Formaldehyde Gasoline
- Glyoxal Hexane
- Hydrogen Peroxide
- Jet Fuel
- Kerosene
- Lacquer Spray Paint
- Latex Paint
- Malic Acid
- Methyl Alcohol
- Mineral Spirits
- Motor Oil
- Muriatic Acid
- Phosphoric Acid
- Phthalic Acid
- Salt Water
- Sewer Sludge
- Sodium Hydroxide
- Tannic Acid
- Triacetin
- Varasol
- Vegetable Oil
